LANGUAGES & SOFT SKILLS

Fluent in Bengali and good communication skills in English.

Can negotiate easily with different kinds of people.

PROJECTS

Subscription based public WiFi service solution

Description: This is a solution to facilitate subscription based wifi solutions nationwide. This project has a robust impact on this internet domain business along with the users. You're out somewhere — a park, a tea stall, a launch ghat, a bus stand or a campus — with no internet, and you'll be there for two or three hours. Buying a mobile operator data pack for that is expensive, and most of it goes unused.

ABX Solution (Corporate ERP - CRM, Billing, HR)

Description: This is a project to facilitate full automation of corporate business solutions of Amber IT Limited.

Technology: Asp.net core 5 Web API and MVC, Entity Framework core,, LINQ, Dapper, Angular JS, Repository Pattern,Clean Architecture, MariaDB, Kendo UI..
